

Amit Haritwal

Full Stack Developer

Birmingham, AL | (659)-279-1984 | haritwalamit02@gmail.com | LinkedIn | GitHub

SUMMARY

Full Stack Developer with 4+ years of experience building scalable, high-performance web applications using React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, and CSS3. Strong expertise in developing reusable component-based architectures, responsive UI systems, and design-system-driven interfaces for enterprise-scale applications. Experienced in REST/GraphQL API integration, advanced state management (Redux Toolkit, React Query), frontend performance optimization, and automated testing (Jest, React Testing Library) to deliver reliable, user-centric solutions. Additionally, experienced with Python and Java for backend services and enterprise application development. Proven ability to collaborate in Agile cross-functional teams to deliver production-ready full-stack solutions aligned with business objectives.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design, Component-Based Architecture, Web Performance Optimization

Backend: Node.js, Express.js, REST APIs, GraphQL APIs, Microservices Architecture

State Management & Data Handling: Redux Toolkit, React Query, Context API, API Integration

Testing: Jest, React Testing Library, Unit Testing, Integration Testing

DevOps & Tools: Git, GitHub, Jenkins, Docker, CI/CD Pipelines, Agile/Scrum

Databases: MongoDB, SQL, Postgres

Other: Cross-Browser Compatibility, UI/UX Collaboration, Performance Optimization, Design Systems, Debugging & Troubleshooting

PROFESSIONAL EXPERIENCE

Full Stack Developer | Dell Technologies

Jan 2026 – Present

- Developing enterprise-scale frontend applications using React.js, Next.js, TypeScript, HTML5, CSS3, and Tailwind, contributing to scalable customer-facing platforms.
- Building reusable UI components and design-system-aligned modules to ensure consistency and faster feature delivery across applications.
- Integrating REST and GraphQL APIs with backend microservices to enable dynamic, data-driven user interfaces.
- Implementing state management solutions (Redux Toolkit, React Query, Context API) to improve application scalability and maintainability.
- Applying frontend performance optimization techniques such as code splitting, lazy loading, and bundle optimization to enhance application responsiveness.
- Writing unit and integration tests using Jest and React Testing Library to maintain code quality and application stability.
- Collaborating in Agile/Scrum environments with product managers, UX designers, and backend teams to deliver new features and enhancements.

Full Stack Developer | CueTech Systems

Jan 2020 – Jul 2024

- Developed responsive enterprise web applications using React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, and Bootstrap/Tailwind, improving UI performance and usability across desktop and mobile devices.
- Built reusable component libraries and scalable frontend architecture, reducing development time for new features by standardizing UI modules.
- Integrated RESTful APIs and backend microservices (Node.js/Express) to enable dynamic data rendering and real-time user interactions.
- Implemented state management solutions (Redux, Context API) to improve application scalability and maintainability across multi-module platforms.
- Optimized application performance through lazy loading, code splitting, caching strategies, and bundle optimization, significantly improving page load times and Core Web Vitals.
- Collaborated with cross-functional Agile teams to translate business requirements into user-centric frontend features, accelerating sprint delivery timelines.
- Developed unit and integration tests using Jest and React Testing Library, improving application stability and reducing production defects.
- Participated in CI/CD deployment workflows using Git, Jenkins, and Docker, enabling faster and more reliable application releases.

EDUCATION

Masters in Computer Information Science, University of Alabama at Birmingham
